

# SCIENTIFIC DATA SYSTEMS® WARRIOR™ WELL LOGGING SYSTEM PANEL

**SKU:** 9002-00001-0001

**Categories:** [Advanced Monitoring](#), [Surface Acquisition](#), [Surface Systems](#), [Warrior™](#)

## PRODUCT DESCRIPTION

The Scientific Data Systems STIP provides support for a very wide range of products. When fitted with either our HSM002 (HD Surface Modem) or used with our HIP002 (HD Interface Panel) it provides full support for all Probe products.

The system utilizes Warrior version 8 logging software which is exceptionally robust, provides full acquisition and playback support while being intuitive and simple to use.

### General Specifications

<b>Processor</b>	Digital Signal Processor (DSP) 1.6 MSPS
<b>Memory Interface</b>	Integrated USB2 Hub and Flash Drive 16 Channel
<b>Power</b>	400 VDC, 500 mA Power Supply Programmable
<b>Supported Plotters</b>	iSys, Neuralog, Printrex, among others

### Features

- 16 bit ADC 6 Channel Counter/Timer
- Programmable Filter/Amplifier Boards Acoustic Filter
- Constant Voltage/Current Modes
- External Power Supply Interface
- Depth Encoder and Line Tension Interface
- Surface Sensor Inputs

Version Control: 2021.12.22
